---

## PROFESSIONAL SUMMARY

Full Stack Web Developer with experience building scalable, responsive, and high-performance web applications using React.js and Python (Flask/FastAPI). Skilled in REST API development, authentication systems, and database integration. Experienced in deploying applications using platforms like Netlify, Vercel, and Render. Strong foundation in data structures, algorithms, and software engineering principles with a focus on building efficient and user-centric solutions.

---

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Python, SQL

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Vite

**Backend:** Python (Flask, FastAPI), RESTful API Development, CRUD Operations

**Database & Auth:** Supabase, SQL

**Tools & Deployment:** Git, GitHub, API Integration, Netlify, Vercel, Render

**Core CS:** Data Structures & Algorithms, Object-Oriented Programming, Software Engineering

---

## PROJECTS

**Career Pulse – Career Recommendation Platform**

**Tech Stack:** React.js, JavaScript, REST APIs, Vercel

- Built a web application for personalized career recommendations based on structured user inputs.
- Implemented API integration and efficient client-side data handling.

- Designed intuitive UI/UX to improve user interaction and engagement.
- Reduced unnecessary API calls, improving application efficiency.
- Deployed application on Vercel for fast and reliable delivery.

---

**Ecosync Nexus – Energy Monitoring Dashboard**

**Tech Stack:** React.js, JavaScript, Vercel

- Developed a dashboard to visualize and analyze energy consumption data.
- Implemented logic to generate optimization suggestions based on user input.
- Designed modular and scalable frontend architecture.
- Improved data readability through structured UI components.
- Deployed frontend using Vercel.

---

**EXPERIENCE**

**Full Stack Developer (Project-Based) | 2024 – Present**

- Designed and developed full stack web applications independently.
- Built backend APIs using Python (Flask/FastAPI) supporting CRUD operations.
- Integrated frontend with backend services and REST APIs.
- Implemented authentication systems and secure user workflows.
- Deployed applications using Netlify, Vercel, and Render.
- Improved performance and responsiveness of applications through optimization techniques.

---

**Freelance Frontend Developer | 2024**

- Developed responsive dashboards and reusable UI components.
- Collaborated with developers to deliver scalable frontend solutions.
- Converted design prototypes into functional and interactive interfaces.

## EDUCATION

**Babu Banarasi Das University, Lucknow**
Bachelor of Technology – Computer Science
2024 – 2028

**St. Anthony Public School (CBSE)**
Intermediate (PCM): 92.2%
High School: 90.83%

## ACHIEVEMENTS

- Top 30 Teams (All India Finalist) – Sustainovation Hackathon 2025
- Finalist – SmallestAI Hackathon (California)
- Top Learner – Google Cloud GenAI Academy

## LEADERSHIP

**National Service Scheme (NSS) – Volunteer** | 2024 – Present

- Organized and led community initiatives and awareness programs.
- Developed leadership, teamwork, and coordination skills.
